

# Skin Script

Passionfruit Facial-(w/ Kollaren Firming Peptide)

**1 Hour - \$65**

This Kollaren peptide enzyme is meant to firm the skin. Elastin fibers are responsible for the resiliency and elasticity of the skin; Collagen I and III give the dermal tissue its strength, resistance and firmness. Kollaren, with its tissue repair properties helps restore collagen and elastin. Passionfruit is an enzyme, as well as a great antioxidant to give the skin a healthy glow.

**Add a Microdermabrasion for an Additional \$20**

Pomegranate Facial

For acne treatment or oily skin

**1 Hour - \$65**

Pomegranate is a powerful antioxidant which also brightens the skin. It promotes deep hydration, reduces oiliness and lightens the skin from irregular pigmentation.

**Add a Microdermabrasion or a Cranberry Peel 20% Salicylic, for an additional \$20**

Lemon Zest Facial

For normal and dry skin; sun damaged skin; hyperpigmentation

**1 Hour - \$65**

Exfoliate and brighten the skin with the antioxidant and brightening benefits of lemon. It promotes deep hydration that protects from environment damage while relieving the surface signs of aging. Arbutin and kojic provide extreme lightening capabilities.

**Add a Microdermabrasion for an Additional \$20**

Coconut Papaya Facial

For Rosacea or Sensitive Skin

**1 Hour - \$65**

Coconut and papaya enzymes dissolve dead skin cells revealing healthy soft skin. The small structure of coconut allows absorption through the skin giving it a smooth texture. Ideal for dry, rough and wrinkled skin

# Why Get a Facial?

A facial is more important than just relaxing and having your face cleansed. Getting a facial is important in learning how your skin reacts to hormones stress, and elements. Everyone should book a monthly facial or at least seasonally to help with skin issues.

Why Monthly? Well your skin regenerates or sheds its cells roughly about every 28 days. If you don't take care to rid the old dead skin then your new skin can't shine through like it should. This can cause many issues including breakouts, a ruddy complexion, and dull lifeless skin.

Your skin is different every time you come for a visit so your facial is customized to your needs. Should you desire a microdermabrasion or chemical peel, you'll see results. Then monthly maintenance will keep your skin healthy and rejuvenated.

## LED Light Therapy

**1 Hour - \$60**

LED light therapy is a painless, relaxing, non-invasive skin-care treatment that has multiple benefits- particularly stimulating collagen and treating mild to moderate acne. LED treatments work by using an array of bright light-emitting diodes (originally developed by NASA) that send low-level light energy into the deeper layers of the skin. Red light LED stimulates cellular activity, including the fibroblasts that produce collagen, which gives young skin it's plump look. That helps minimize fine lines and wrinkles, treat sun-damage and stretch marks, and reduce redness after more aggressive IPL or laser treatments. The results won't be as dramatic as plastic surgery, IPL, or laser, but it's a gentler, more natural, less expensive way to go.

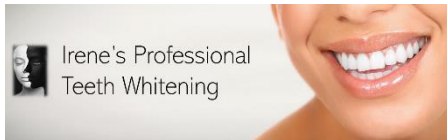

By using the knowledge and skin care products that I provide, you will see for yourself the positive changes occurring in your skin. I want you to look as beautiful as you feel.

## Professional Teeth Whitening

Your smile is important. It's one of the first things people notice when they meet you, and a brighter, whiter smile can help you feel better about yourself and leave a lasting impression.

- 15-60 Minute Safe Treatments
- State-of-the-Art Technology
- No Sensitivity, Gagging or Heat

**\$145** - Advanced Kit  
16% HP

**\$175** - Advanced Whitening Kit Plus  
25% HP

## Microneedling

Microneedling - Face  
**\$85 Per Session**  
Face & Neck  
**\$135 Per Session**

### What Is Microneedling?

Microneedling is a procedure that uses a collection of tiny needles to puncture the very first layer of skin. This process works to rejuvenate your skin by boosting collagen production, which in turn reduces the appearance of wrinkles and fine lines and elevates the overall texture of your skin.

### Benefits of Microneedling

- Enhances texture of skin.
- Stimulates collagen production.
- Can help reduce scars and hyperpigmentation.
- Can reduce the appearance of wrinkles.

## Waxing

Waxing is a fast efficient method of temporary hair removal. Waxing over a period of time causes a thinning of hair growth and extends the period of time between waxing treatments. Please be advised that you should avoid sun exposure and any heat treatments for at least two hours before waxing and twelve hours after.

Waxing/Tweezing Eyebrows

**20 min - \$15**

Waxing Upper Lip

**20 min - \$10**

Waxing Underarms

**30 min - \$40**

Waxing Whole Face

**30 min - \$65**

Waxing - Bikini Wax

**45 min - \$50**

Microdermabrasion (Diamond-Tip)

**Face 60 min - \$70**

This treatment uses a newer crystal-free dermabrasion system to deeply exfoliate your skin - minimizing pores and reducing the appearance of fine lines, dark spots, pigmentation, sun damage and scars - resulting in a fresh glow and youthful appearance. Best results are achieved with a series of treatments. This treatment can also be applied to your neck, décolleté area and hands for a cost of \$45 for each additional area if required.

Microcurrent-Mini Face lift

**30 min Consultation required prior to treatment(s)**

**Prices vary according to recommended treatment**

- **Microcurrent Special Event Treatment**  
**\$75 Per Session**

Microcurrent is a very popular anti-aging skin treatment used to diminish the appearance of fine lines and reducing the overall visual appearance of aging. For prices and more detailed information on this service please visit [irenesskincare.com](http://irenesskincare.com)

## Dermaplaning

**Dermaplaning Facial - \$65**

### What is it?

Dermaplaning is a method of exfoliation that consists of using a scalpel to gently scrape off the top layer of dulling dead skin cells in order to reveal a smoother, brighter complexion. It also eliminates that annoying peach fuzz that cakes up in makeup and can be enhanced by harsh production lighting and high-definition cameras. Dermaplaning removes all the dead skin cells and also the facial hair, leaving the surface very smooth. Dermaplaning also allows for greater penetration of skincare products and creates a flawless canvas for makeup to glide on smoothly.

### Dermaplaning versus Microdermabrasion?

They are both forms of physical exfoliation, but the methods are very different. Microdermabrasion, sands and suctions dead skin cells, which also helps to uproot clogged pores around the nose, mouth and chin. Dermaplaning safely scrapes off the top layer of skin, so it is well suited for drier skin types and anyone who wants to get rid of peach fuzz. Both methods are good for almost everyone and it could just boil down to your personal preference.

### Who is it for?

Dermaplaning is recommended for all skin types except those with acneic skin. If you have deep cystic acne, wait until breakouts are clear before trying this treatment. As always, also discuss any allergies or skin sensitivities before starting a treatment. This is a great treatment if you are pregnant or nursing and want exfoliation without the risk of harsh chemicals absorbing into the blood stream and potentially harming your baby.

### What does it feel like?

Dermaplaning is a painless procedure and can be compared to the sensation of shaving your legs, but in this case, it's on your face.
